SUMMARY

IT graduate building database-driven web systems with PHP and MySQL. Developed and deployed a production order monitoring system used daily by a printing business, using AI-assisted development with Claude Code. Backed by hands-on technical support experience — hardware, printers, networking, and CCTV.

EXPERIENCE

Web Developer (AI-Assisted Development)

Dec 2025 – Present

Mark D Unlimited Enterprise — Bacoor City, Cavite

- Designed, built, and deployed a web-based Order Monitoring System (PHP, MySQL, HTML, CSS, JavaScript) used daily by the business to track print jobs from order to release.
- Built role-based dashboards for six user roles — sales, sales manager, GA, operator, production, and releasing — with access control and order workflow stages.
- Designed the MySQL database schema and deployed the system to live cPanel hosting.
- Accelerated delivery with AI-assisted development (Claude Code) while owning every query and line in production; iterate on features based on staff and owner feedback.

Technical Support Assistant

Nov 2024 – Present

Mark D Unlimited Enterprise — Bacoor City, Cavite

- Provided first-line technical support for computer, printer, and network issues in a printing shop environment.
- Performed hardware maintenance, including assembly, setup, and repair of computers.
- Installed, configured, and maintained CCTV systems for monitoring and security.
- Managed user accounts, including setup, password resets, and access control.
- Installed and configured sublimation printers, including on-site client installations.
- Resolved technical issues remotely using remote access tools, reducing on-site visits.

EDUCATION

Cavite State University – Imus Campus

Graduated: 2024

Bachelor of Science in Information Technology — Imus, Cavite

Imus Unida Christian School

Graduated: 2020

Technical-Vocational Livelihood (ICT Strand) — Imus, Cavite

SKILLS

Web development: PHP, MySQL, HTML, CSS, JavaScript

Databases: MySQL — schema design, queries, and day-to-day database management

AI-assisted development: Claude Code — planning, building, and debugging production systems

Tools: VS Code, XAMPP, Git & GitHub, cPanel, Microsoft Office (Word, Excel)

Technical support: hardware troubleshooting and computer assembly; printer troubleshooting (sublimation and desktop); basic networking (LAN setup, IP configuration, cable management); CCTV installation; remote support (AnyDesk, TeamViewer)

Soft skills: problem-solving, attention to detail, time management
